Joseph Wright

Civil Engineer | Land Development, Transportation & Drainage

joseph.wright70@example.com · (281) 555-0122 · Houston, TX

Summary

Civil engineering project manager with more than 15 years of experience in land development, transportation, and drainage and flood control across Texas. Applies HEC-HMS and HEC-RAS hydrologic and hydraulic modeling, MicroStation and AutoCAD design production, and ArcGIS spatial analysis to deliver detention, roadway, and subdivision projects. Holds a Texas Professional Engineer license and a Master of Science in Civil Engineering.

Experience

Project Manager 2023 – Present

Garver · Houston, TX

- Manage design delivery for Sugar Land Thoroughfare Improvements ($16M), coordinating roadway geometry, grading, and drainage design in MicroStation and AutoCAD.
- Lead hydrologic and hydraulic analysis for The Woodlands Drainage Improvements ($32M) using HEC-HMS and HEC-RAS to size conveyance and verify flood control performance.
- Oversee the Sugar Land Detention Pond, directing stormwater storage calculations, outlet structure design, and Bluebeam Revu plan review.
- Coordinate project schedules, consultant deliverables, and client review cycles across multi-discipline civil teams.

Project Manager 2020 – 2023

HDR · Houston, TX

- Managed Sugar Land Interchange Reconstruction ($143M), overseeing interchange geometry, staging, and drainage design in MicroStation and AutoCAD.
- Directed Katy Detention Pond design, performing HEC-HMS runoff modeling and detention sizing to meet regional flood control criteria.
- Led Sugar Land Bridge Replacement, coordinating roadway and hydraulic design deliverables with structural and survey teams.

Senior Project Engineer 2016 – 2020

HDR · Houston, TX

- Designed grading, drainage, and utility layouts for transportation and land development projects using AutoCAD and MicroStation.
- Performed hydrologic and hydraulic calculations with HEC-HMS and HEC-RAS to support stormwater design.

Senior Project Engineer 2013 – 2016

Kimley-Horn · Houston, TX

- Designed drainage infrastructure for Houston Detention Pond ($205M), performing HEC-HMS hydrologic modeling and detention volume calculations.
- Led site design and grading for Houston Residential Subdivision, using ArcGIS for terrain analysis and lot layout.

Project Engineer 2010 – 2013

BGE · Plano, TX

- Prepared grading, paving, and drainage plans for Plano Residential Subdivision in AutoCAD.
- Completed stormwater and storm sewer calculations to support subdivision design approvals.

Project Engineer 2008 – 2010

AECOM · Round Rock, TX

- Supported design of Houston Thoroughfare Improvements ($301M), producing roadway plans and drainage calculations in MicroStation.
- Assisted Houston Drainage Improvements and Sugar Land Residential Subdivision with hydraulic calculations and CAD production.

Skills

HEC-HMS · HEC-RAS · MicroStation · AutoCAD · Bluebeam Revu · ArcGIS · Hydrologic & Hydraulic Analysis · Stormwater Design · Project Management

Licenses & Certifications

- P.E., Texas #134975

Education

M.S. in Civil Engineering, Baylor University, 2008
