Michelle Ray

Structural Engineer | Analysis, Modeling & Design

michelle.ray17@example.com · (817) 555-0119 · Irving, TX · Open to relocation

PROFILE

Structural engineer with experience across multifamily, K-12 education, and commercial office projects, from early-career support through senior-level design leadership. Hands-on with structural analysis and modeling platforms including ETABS, SAP2000, and RAM Structural System, with a focus on load path development, member sizing, and code-compliant design. Open to relocation.

WHERE I'VE WORKED

Senior Structural Engineer 03/26 – Present

Walter P Moore · Irving, TX

- Lead structural analysis and design for Denton Mid-Rise Residential and Irving Mid-Rise Residential, modeling lateral and gravity systems in ETABS and RAM Structural System.
- Perform foundation and slab design using SAFE, verifying member capacities and serviceability for multifamily framing.
- Direct structural design coordination for Arlington Elementary School Replacement, reviewing calculations and drawing sets in AutoCAD.
- Oversee design checks and calculation packages for senior-level deliverables across active multifamily and K-12 projects.

Senior Structural Engineer 10/24 – 03/26

Stantec · Irving, TX

- Led structural design for Plano ISD Middle School ($182M), developing lateral system models in ETABS and SAP2000.
- Managed structural analysis and detailing for Grapevine ISD High School Addition, coordinating framing layouts in AutoCAD.
- Reviewed member design calculations and load combinations to confirm code compliance across K-12 education projects.

Structural Engineer 10/20 – 10/24

Stantec · Irving, TX

- Performed structural analysis and member checks using RISA-3D and SAP2000 for commercial and educational building projects.
- Prepared framing plans and structural drawings in AutoCAD under senior engineer direction.

Structural Engineer in Training 10/18 – 10/20

Stantec · Irving, TX

- Supported structural calculations and load takedowns for building design projects under licensed engineer supervision.
- Assisted with drafting and model checks in AutoCAD and RISA-3D.

TOOLBOX

ETABS · SAP2000 · SAFE · RAM Structural System · RISA-3D · AutoCAD · Structural analysis and modeling · Load path and member design · Calculation review and QA

REGISTRATIONS

- P.E., Texas #123712

SCHOOLING

B.S. in Civil Engineering, Southern Methodist University, 2017
